

Rape Culture

By

ignoring that there is little incentive to report a rape; it's a terrible experience with a small likelihood of seeing justice served. Rape culture is asking, "Why didn't she just go to the cops?", thus imposing a state-model of "justice" on the survivor, ignoring the white supremacy of the police and courts and the centuries long history of exploitation and oppression of the American judicial system.

against patriarchy | state | capitalism | white supremacy
